Sir:

Responsive to the Office Action dated 13 June 2003 the time to respond being until 13

September 2003, please enter the following amendments:

IN THE SPECIFICATION:

Please amend the specification as follows:

Beginning on page 6, line 1, and running to page 6, line 10, delete the existing paragraph and replace it with the following paragraph:

In accordance with the above objects, an improved high-voltage electrostatic generator is disclosed. The generator includes a pair of counter-rotating disks. Each disk has a plurality of charge plates angularly disposed about the periphery on one side, the charge plates on one disk facing those on the other. A plurality of grounding conductors with brushes at each end are associated with each of the disks, each grounding conductor alternately grounding a pair of opposing charge plates on each disk as it rotates. The
